

Material Safety Data Sheet

HAZARD WARNINGS	RISK PHRASES	PROTECTIVE CLOTHING
	Irritating to skin, eyes, and the respiratory system.	

Section I. Chemical Product and Company Identification		
Chemical Name	Glycyl-L-proline	
Catalog Number	G0137	Supplier TCI America 9211 N. Harborage St. Portland OR 1-800-423-8616
Synonym	H-Gly-Pro-OH	
Chemical Formula	C ₆ H ₁₁ N ₂ O ₂	
CAS Number	704-15-4	In case of Emergency Call Chemtrec® (800) 424-9300 (U.S.) (703) 527-3887 (International)

Section II. Composition and Information on Ingredients				
Chemical Name	CAS Number	Percent (%)	TLV/PEL	Toxicology Data
Glycyl-L-proline	704-15-4	Min. 96.0 (T)	Not available.	Not available.

Section III. Hazards Identification				
Acute Health Effects	Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening, or, occasionally, blistering. Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound.			
Chronic Health Effects	CARCINOGENIC EFFECTS : Not available. MUTAGENIC EFFECTS : Not available. TERATOGENIC EFFECTS : Not available. DEVELOPMENTAL TOXICITY : Not available. Repeated or prolonged exposure to this compound is not known to aggravate existing medical conditions.			

Section IV. First Aid Measures				
Eye Contact	Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.			
Skin Contact	In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention.			
Inhalation	If the victim is not breathing, perform mouth-to-mouth resuscitation. Loosen tight clothing such as a collar, tie, belt or waistband. If breathing is difficult, oxygen can be administered. Seek medical attention if respiration problems do not improve.			
Ingestion	INDUCE VOMITING by sticking finger in throat. Lower the head so that the vomit will not reenter the mouth and throat. Loosen tight clothing such as a collar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible indication that the toxic material was ingested; the absence of such signs, however, is not conclusive.			

Section V. Fire and Explosion Data						
Flammability	May be combustible at high temperature.	Auto-Ignition	Not available.			
Flash Points	Not available.	Flammable Limits	Not available.			
Combustion Products	These products are toxic carbon oxides (CO, CO ₂), nitrogen oxides (NO, NO ₂).					
Fire Hazards	Not available.					
Explosion Hazards	Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available.					
Fire Fighting Media and Instructions	SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use water spray, fog or foam. DO NOT use water jet. Consult with local fire authorities before attempting large scale fire-fighting operations.

Section VI. Accidental Release Measures				
Spill Cleanup Instructions	Irritating material. Use a shovel to put the material into a convenient waste disposal container. Finish cleaning the spill by rinsing any contaminated surfaces with copious amounts of water. Consult federal, state, and/or local authorities for assistance on disposal.			

Section VII. Handling and Storage				
Handling and Storage Information	IRRANT: Keep away from heat. Mechanical exhaust required. When not in use, tightly seal the container and store in a dry, cool place. Avoid excessive heat and light. Do not breathe dust. Always store away from incompatible compounds such as oxidizing agents.			

Section VIII. Exposure Controls/Personal Protection				
Engineering Controls	Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.			
Personal Protection	Splash goggles. Lab coat. Dust respirator. Boots. Gloves. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product. Be sure to use a MSHA/NIOSH approved respirator or equivalent.			
Exposure Limits	Not available.			

Section IX. Physical and Chemical Properties				
Physical state @ 20°C	Solid. (White, Powder.)	Solubility	Not available.	
Specific Gravity	Not available.			
Molecular Weight	172.18	Partition Coefficient	Log P _{ow} -0.834	
Boiling Point	Not available.	Vapor Pressure	Not applicable.	
Melting Point	Not available.	Vapor Density	Not available.	
Refractive Index	Not available.	Volatility	Not available.	
Critical Temperature	Not available.	Odor	Not available.	
Viscosity	Not available.	Taste	Not available.	

Section X. Stability and Reactivity Data				
Stability	This material is stable if stored under proper conditions. (See Section VII for instructions)			
Conditions of Instability	Avoid excessive heat and light.			

Incompatibilities	Reactive with oxidizing agents.			
-------------------	---------------------------------	--	--	--

Section XI. Toxicological Information				
RTECS Number	Not available.			
Routes of Exposure	Eye Contact. Ingestion. Inhalation.			
Toxicity Data	Not available.			
Chronic Toxic Effects	CARCINOGENIC EFFECTS : Not available. MUTAGENIC EFFECTS : Not available. TERATOGENIC EFFECTS : Not available. DEVELOPMENTAL TOXICITY : Not available. Repeated or prolonged exposure to this compound is not known to aggravate existing medical conditions.			
Acute Toxic Effects	Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening, or, occasionally, blistering. Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound.			

Section XII. Ecological Information				
Ecotoxicity	Not available.			
Environmental Fate	Not available.

Section XIII. Disposal Considerations				
Waste Disposal	Recycle to process, if possible. Consult your local regional authorities. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. Observe all federal, state and local regulations when disposing of the substance.
